* The end of the day will be held when the period has been given up, or when the day is not given up.

(B) The day is not given up.

(C) The day is not given up.

(D) The day is not given up.

4. Attention is drawn to the following rules:—

(1) No candidate will be allowed to enter the examination room unless he wears a clean and decent dress, and in all cases where good reasons require it, a suitable covering for the head, nor will he be allowed to keep his shoes on unless they are shoes of English pattern, and socks and trousers are worn also.

No candidate suffering from any contagious disease will be admitted to the examination room.

(2) No candidate will be allowed to quit the examination room on any day until the expiration of half an hour from the time fixed for the commencement of the examination, and candidates arriving after the expiration of that half hour will not be admitted.

(3) No candidate will be allowed to re-enter the examination room during the hours of examination after once quitting it, nor to leave the room without finally giving up his answer papers.

(4) Any candidate detected in speaking to, or in any way communicating with, any other candidate will be at once removed from the room and the circumstances reported to the Commissioner.

(5) Any candidate suspected of having had recourse to malpractice in any kind is liable to have his examination interrupted and also to be deferred from appearing again for any of the examinations under the control of the Commissioner for such term of years as the Commissioner may think fit; or, if the Commissioner is not satisfied for any reason whatever as to the truthfulness of his results, he may be required to undergo a re-examination of some literary tests to be fixed by the Commissioner in any one or more of the subjects of the examination for which he appeared, his success or failure being determined on the basis of such re-examination.

(6) No candidate will, on any pretext, be allowed to take into his examination room ink, slates, books, manuscript papers of any kind. Any one detected in the violation of this rule or having recourse to any unfair practice will be removed from the room and the consequences reported to the Commissioner. The use of book-keeping instruments for drawing figures or ruling lines will, however, be allowed.

(7) Candidates whose names are not in the printed list furnished to the Superintendent must submit a written declaration through the Superintendent, giving full particulars in regard to themselves and furnish such evidence as may be possible of their having applied for admission to the examination at the proper time and paid the prescribed fees. The answer papers of such candidates will not be valued unless it is clear that the success of their names is due to no fault of theirs.

(8) Candidates desirous to change their place of examination, without previous permission, or appearing at any centre other than the one at which they ought to have appeared according to the notice published in the Gazette, must not expect to have their papers valued or their results published. In all cases where permission has been granted, the superintendent or other permitting the change should be produced for the satisfaction of the Superintendent.

(9) A candidate having completed his paper will rise from his seat and remain standing until the Superintendent takes his answer papers. Any candidate wishing to ask any question of the Superintendent will pursue the same course, but will on no account leave his place.

(10) Any paper sent up without the candidate's name and number attached will not be examined.

(11) Candidates will not be allowed to take any papers, except their question papers, out of the examination room.

(12) Candidates are forbidden to tear up papers or to throw ink or papers on the floor. All "spoil papers, etc." should be left on the desk when the candidate has been writing.

1. The Written, Oral and Practical examinations will be held only at Madras. No notice will be taken of the application of any candidate who sends a notice other than Madras.

2. In the case of applicants from pupils, the head of the institution from which they are sent is requested to send, before signing the certificate at the foot of such application, that the institution has been recognized by the Director of Public Instruction, Madras, as fitted to impart instruction in Hygiene and Animal Physiology, according to the Intermediate grade.

3. Rules of institutions recognized for General Education only should not sign the certificate at the foot of the application form filed in by any of their pupils coming up for the Technical Examinations.

Whereas it has been found necessary to take steps to control the preparation, possession and sale of distended spirits in the Madras Presidency, the following rules have been framed by the Board of Revenue, under section 2, Act XVI of 1903, and sections 13 and 14 of the Abkisi Act I of 1898, in that regard in pursuance of those contained in Notification No. 7, dated 7th February 1910, published on pages 280 and 281 of the Port St. George Gazette, dated 8th February 1910, Part II. They will come into force from and after 1st January 1913:-

1. Distended spirit is spirit produced either wholly or partially by the chemical action of a mineral source, or wood-naphtha, or other special constituents, approved of by the Board of Revenue.

2. Distended spirits are liable to a duty of 5 per cent ad valorem: the duty being calculated on the declared base price of such merchandise at the distillery, less the discount, if any, allowed to purchasers and the duty. Distillers should, when applying for a permit, declare the sale price of the spirit at the distillery for the purpose of calculating the ad valorem duty.

3. Distended spirit may be manufactured by holders of distillery licence in the Presidency, provided (1) that the light naphtha and pyridine bases to be used with the spirit must first be tested and approved in the Board's Laboratory, (2) that they must be kept under lock and key by, and used under the supervision of, the distillery officer, (3) that they must be 92 gallons of the spirit, and (4) that the spirit shall not be of less strength than 30 per cent. test is permitted, with the proviso that one part by volume of crude wood-naphtha shall be used with nine parts of spirit and that the use of wood-naphtha in a highly purified condition for the purpose of denaturation for spirit intended for use in particular arts and manufactures.

4. Spirit denatured with light naphtha and pyridine bases may be imported by sea, but samples must be submitted to the Board's Laboratory and those notified to be fully

destroyed before removal from the Custom-house may be permitted. In the case of spirits by sea from other Provinces a certificate from the Collector of Customs at the port of shipment to the effect that the spirit has been fully destroyed may be accepted in lieu of the Board's report. Spirit that is not sufficiently destroyed must either be destroyed abroad or over-pay duty at the full tariff rate. Spirit loaded with wood-spirits or other special distillates may be imported only with the special sanction of the Board.

5. Licences (M.S.—1) for sale of spirit destinated with light excise-duties and pyridine bases will be issued by Collectors, free of fee, to respectable applicants on their showing that they have a legitimate demand for such spirit. All such applications should be forwarded to the Collector through the Inspector of the Salt, Akari and Customs Department of the Circle in which the applicant resides, to hold his licence. The issue of licences to persons licensed to sell liquor for consumption on the premises is prohibited.

6. The holders of M.S.—1 licences may obtain their supplies of spirit from the custom-house or distillery on production of a written permission (M.S.—5) from the Collector of the district in which the custom-house or distillery is situated for the removal of the same. Books of form of application for such permission (M.S.—3) will be supplied to them. These applications should be forwarded to the Collector concerned through the Collector of the district to which the applicant wishes to transport the spirit. The licences are also empowered to sell spirit to one another and to holders of M.S.—1-a licences up to a maximum of 30 gallons at a time. The transport of spirit thus sold should be covered by a permit to be granted by the officer in such case. Books of permits (M.S.—4) for the transport of the spirit to be obtained from holders of M.S.—1 licences in quantities exceeding one gallon but not exceeding 30 gallons will be issued to holders of these licences on application to the Collector of the district in which they carry on their business.

7. Vendors-bakers and others requiring spirit destinated with light excise-duties and pyridine bases for use in their business, but not for sale, will be given special licences (M.S.—1-a) on application, supported by evidence as to their requirements through the Inspector of the Circle, to the Collector of the district in which they carry on their business. They will be supplied by distillers or through the custom-house on production of a permit (M.S.—6-a) to be obtained from the Collector on application in form (M.S.—3-a). These licences may also obtain their supply of spirit from holders of M.S.—1 licences up to a maximum of 30 gallons at a time.

8. Holders of M.S.—1 and M.S.—1-a licences will, on application to the Collector of the district in which they carry on their business, be furnished with books of requisites (M.S.—8) authorizing them to obtain spirit destinated with light excise-duties and pyridine bases in quantities exceeding one gallon but not exceeding 30 gallons at a time from holders of M.S.—1 licences.

9. Similar licences (M.S.—1-b) will be given to Chemists and others who, for special reasons, require spirit distilled with wood-spirits. The procedure will be the same except that (unless the Board has given a special authority to import) the spirit will be obtainable only from local distilleries and that the licences will be required to enter into a bond (M.S.—1) with the Collector undertaking to use the spirit for the purpose specified and no other. The forms to be used in this case will be M.S.—1-b, M.S.—3-b, M.S.—3-b. Persons holding these licences will also be allowed to sell such spirit up to a maximum of one quart at a time, on the use of it being ordered in writing by a competent medical man. Such orders are to be retained by the holder in his stock book until the latter is inspected by an Akari officer.

10. A special licence in form M.S.—1-c will be issued to the Highway Collector in the Presidency for the storage and use of spirit destinated with light excise-duties and pyridine bases and its distribution to such stations as their respective laws, as may be specified in the licence, provided that the licensee enter into bond with the Collector undertaking to use the spirit for the purpose specified in the licence and no other. The licensee may obtain their supplies of the spirit from the custom-house or distillery on production of a written permission (M.S.—5-a) to be obtained from the Collector of the district in which the custom-house or distillery is situated on application in form M.S.—1-c. The Highway Collector will be exempted from taking out separate licences for individual stations for the possession and use of the spirit received from the M.S.—1-c permit. The transport of spirit should be covered by a permit (M.S.—4) to be granted by the licensee in such case.

11. The Customs or Distillery officer concerned will send an advice in form M.S.—7 of each issue of destinated spirit that he makes to the Inspector of the Circle to which the spirit is consigned. This advice must be sent promptly at the time of issue. No issue of more than 120 gallons of any one time to any one person is permitted. The limit will in the case of holders of M.S.—1-a licences be extended to 220 gallons.

12. Unlicensed persons are prohibited from selling destinated spirit, and from possessing more than one quart at a time. The limit is fixed under section 13 of Act I of 1884. Breach of this rule will subject the offender to the penalties provided in the Act.

13. When insufficiently destroyed spirit is again destinated under rule 4 above, the importer will bear the expense.

14. The minimum strength at which imported and locally-made destinated spirit may be sold will be 54° overproof.

The Standard Barometer and Thermometers are read at 6 a.m., 10 a.m., 4 p.m., and 8 p.m., and the daily means are obtained by the application of hourly corrections, deduced from twenty years' observations. The column of the Barometer is twenty-two feet above the level of the sea, and the number of the Rain Gauge is two feet from the ground. The wind, rain, and general weather registered are for the current Civil Day—from midnight to midnight.

The total quantity of rain collected since January 1st = 97.06 inches, the average due for the same period being 55.45 inches.
